JK'S TRAVERSE CITY CHERRY

FARMHOUSE CIDER

The majestic shoreline of Lake Michigan, the only one of the Great Lakes located entirely in the United States, stretches as far as the eye can see. Towering lighthouses add to the elegance, as well as the beauty and aroma of surrounding Michigan cherry trees. Helping to temper arctic winter winds and cool the hot summer orchards, Lake Michigan provides the perfect sandy climate for growing almost 75% of the tart cherry crops in the United States each year.

At Almar Orchards, we have carefully paired our own Michigan organic apples together with Traverse City tart cherries to create a balanced cider full of flavor and color, so that you too may enjoy a taste of Michigan with us.

JK'S FARMHOUSE CIDERS ARE SLOWLY FERMENTED CONCOCTIONS MADE FROM OUR APPLES AND THE WILD YEAST ON THEIR SKINS. WE GROW, HARVEST, AND PRESS THE APPLES RIGHT HERE ON OUR FARM.

A CIDER UNLIKE ANY OTHER. THAT IS WHAT MAKES JK'S THE ONE YOU YEARN TO SIP.
